| Declare under our sole responsibility that the following ranges of products listed below comply with BS 6121:2005. |  |  |  |
| Equipment Type and Use: BICON BW Armoured Brass Cable Glands ( sizes 20s to 75 ) Armour glands for use in Indoor Industrial areas. <br> Standards Applied : BS 6121:2005 - Armour Glands - Type Test Requirements. <br> ( BS EN 50262 - referenced from BS 6121 for test methodology) |  |  |  |
| Classification | Clause | Category | Declared Category or Performance Level Achieved |
| According to Material | 6.1 | 6.1.1 Metallic cable glands | Metallic |
| According to Mechanical Properties | 6.2.3 | 6.2.3 Impact category | 6.2.3.8 Impact Category 8 |
|  | 6.2.4 | 6.2.4 Cable retention for armoured cable | 6.2.4.2 Anchorage Class B |
| According to Electrical Properties | 6.3 | 6.3.1 With electrical continuity characteristics | 6.3.1.1 Equipotential bonding to enclosure |
|  |  |  | 6.3.1.2 Electrical connection to metallic layers(s) of cable |
|  |  |  | 6.3.1.3.2 Protective connection to earth - Category B |
| According to resistance to external influences | 6.4 | 6.4.2 Temperature range | $-20^{\circ} \mathrm{C}$ to $+90^{\circ} \mathrm{C}$ |
